EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 2 line 32, the phrase "a second" has been changed to - - an - -, because this is the first occurrence of an AF signal value in the claim.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The primary reason for allowance of claims 1 and 3-5 is the claim 1 limitation for setting the infinity determination threshold value to the shorter range side among a first and second auto-focus (AF) signal, wherein the first AF signal is the farthest distance measurable by the camera and the second AF signal is determined based on the switchover luminance that determines whether the aperture is set to the wide open value or increases the aperture according to outside luminance. The primary reason for allowance of claim 2 is the claim limitation that the AF signal value corresponding to the switchover luminance is set as the infinity determination threshold value **AND** an infinity signal value, which is a distance signal value corresponding to an infinity set distance, is within a distance signal value corresponding to a range of permissible circle of confusion in an infinity determination distance, which is nearest distance of distances subjected to an infinity determination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
